From line 348, column 29; to line 348, column 47

```

<hr class="my-4" />↵↵

```

Document checking completed. No errors or warnings to show.

Image report

The `img` elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group's definition.

Empty textual alternative—Omitted from non-graphical presentation

The following images are marked to be omitted from non-graphical presentations (`alt=""`).

Purely decorative images belong in this category. Also, iconic images that are redundant with text next to them belong here.

If the page would become less understandable if the presence of an image was concealed, the image doesn't belong here. In that case, a textual alternative should be supplied or if the markup generator does not have a textual alternative available (because the user refused to provide it), the `alt` attribute should be omitted by the markup generator.

Image Location

Not resolvable From line 69, column 21; to line 69, column 107

Used the HTML parser.

Total execution time 24 milliseconds.
